MEDICAL & RESCUE

Product Description

EURIECA® Point of Work Bag

A high-quality emergency response bag aimed at identifying and treating life-threatening emergencies in the renewable energy sector. Developed over 6 years, each item of equipment is included due to its clinical effectiveness and ease of use in a challenging environment.

The EURIECA® Point of Work Bag is designed for use when a lift is unavailable and technicians need to climb, this kit is lightweight and contains all essential items for an immediate response to an emergency, including an AED.

Crafted from ultra-high-quality materials, the bag is extremely robust, can accommodate a diverse range of medical equipment.

DEVELOPMENT OF THE EURIECA® RENEWABLE ENERGY EQUIPMENT

Over 6 years of development has gone into the design, structure and layout of the EURIECA® equipment system, which is based on industry credible injury scenarios and models of working. Each item of equipment is included due to its clinical effectiveness and ease of use in a challenging environment.
