Product Description

EURIECA® Training Equipment

The EURIECA® Training Kit is designed for accredited trainers to ensure top-quality instruction in renewable energy. Developed over six years, each tool is selected for clinical effectiveness and user-friendliness in challenging conditions.

The kit supports prolonged rescues, multiple casualty events, and primary response needs in the sector. Made from durable materials, it is built specifically for EURIECA® courses.

DEVELOPMENT OF THE EURIECA® RENEWABLE ENERGY EQUIPMENT

Over 6 years of development has gone into the design, structure and layout of the EURIECA® equipment system, which is based on industry credible injury scenarios and models of working.

Each item of equipment is included due to its clinical effectiveness and ease of use in a challenging environment.
