GIBB GROUP
MEDICAL & RESCUE

Service Description

EURIECA® Emergency Response Plan Consultancy

Gibb Group can offer onsite support for offshore/onshore exercises, to assist in the stress testing of emergency response plans.

These exercises incorporate both the rescue and medical response to incidents, and allow EURIECA® practitioners to take what they have learned on their course and put it into practice in their operational environment.

Feedback and process confirmation will be delivered along with assistance in reporting significant findings and recommendations for improving process.
